

About GP JOULE

GP JOULE is an integrated energy supplier that covers the entire energy value chain, from generation to use - and from consulting and financing through to project planning, construction and service. GP JOULE produces and sells wind and solar power, green hydrogen and heat and makes use of it where it is most effective: in electric and hydrogen-based mobility, in households and in industry. From its base in Germany, GP JOULE has been shaping the future of energy in Europe since 2009. For a secure, independent and sustainable supply of energy. For 100% renewable energy for everyone.

GP JOULE won the 2022 German Mobility Award for its eFarm hydrogen mobility project.

About Ove Petersen

Ove Petersen is co-founder of GP JOULE and today CEO of the GP JOULE Group founded in 2009 headquartered in Reußenköge in Schleswig-Holstein and Buttenwiesen in Bavaria.

Regionally as well as on a national level, the trained farmer and graduate agricultural engineer is involved in associations, working groups and on various platforms, for example as chairman of the board of watt_2.0 and as a member of the board of the Schleswig-Holstein Association of Renewable Energies.

The vision of "100 % renewable" always acts as the driving force behind Ove Petersen's ideas, projects and decisions and those of the entire GP JOULE group of companies.
